InCK Business Highlight

Wayne County Health Department
405 North Basin Road
Fairfield, Illinois
618-842-5166

Wayne County Health Department is dedicated to working with individuals, other health care providers, community agencies and organizations, and the community at large—to monitor, improve and protect health and safety in our community. We provide services in maternal and child healthcare such as WIC, family case management, lead poisoning screening and case management, Family Enrichment home visiting, and childhood immunizations. We also provide services in environmental health protection, emergency preparedness, food sanitation, smoking education, opioid awareness, adult immunizations, and communicable diseases. Operating hours Monday thru Thursday 8:00 a.m. to 5:30 p.m.

Staff Spotlight

I am the Supervisor of the Wayne County Family Enrichment program. Prior to becoming the supervisor, I was a parent educator for 7 years. As the supervisor I do the monthly program meetings, attend monthly community meetings, plan and schedule monthly group events, recruit families, and coordinate the Early Childhood council meetings. I live in Cisne where I grew up. I love that my job allows me to give back to the county that I was raised in!

Hannah Hyder

InCK Success Stories

During the month of August InCK staff has been busy spreading the word about the InCK Model. We have participated in school registrations, back to school events, and community events letting everyone know how InCK is ready to support children and families in the counties of Gallatin, Hamilton, Saline, Wayne and White.

If you would like to help us in these efforts we are currently looking for a Wellness Coach, Family Resource Developer, Community Engagement Specialist, and Service Integration Coordinators to add to our team.
