10:30am-11:00am

This is for you Carmi,
Bradshaw Park- June 22nd
from 1:00pm-4:00pm

Keep kids busy this summer with a Summer Bucket List of fun activities you can do with your kids.

Scavenger Hunt:

Head outside for a fun scavenger hunt with the kids. You can do this on a hike or through your own neighborhood. Older kids will love making it a selfie scavenger hunt.

Backyard Camping:

Kids will have a blast camping in the backyard this summer.

Summer is the perfect time for camping. Make it easy by pitching the tent in your backyard.

Tell stories around a fire pit and roast a hot dog and smores to eat.

If you are more adventurous head out on a camping trip.

Read in a Hammock\Outdoors:

Relax this summer by reading a good book in a Hammock. Finding a new fun place to read will help encourage your kids to keep up their reading over the summer.

Collect Bugs or Catch Fireflies:

Let the kids scour the backyard or local trails for cool bugs to collect. Add small bugs to a bug catcher kit so you can observe the bugs up close. One of the best parts of summer is catching fireflies. Head out at night to catch them and don't forget your bug catcher kit. Then when you're done for the day let them go.

Obstacle Course

Make an obstacle course in your backyard with items you have at home.

For instance having kids jump through a hula hoop, run around cones, go up a ladder, and down a slide. Just use what you have and make small obstacles. Older kids will enjoy turning it into a race.

Make a Time Capsule

Take time to keep memories of 2024 and add them to a time capsule you can bury in the backyard. Kids will love finding interesting items to add to their capsules.

Cook a Meal Together

Look through recipes with your kids and pick out a meal you'd all like to try. Then cook together and try your food. If you have a favorite family dish teach your kids how to make that too.

DIY Laser Maze

Create a cool Hallway Laser Maze as a fun kids activity. Keep the kids busy thinking of creative ways to design their indoor hallway laser maze with steamers and tape. See who can get through the maze the fastest without touching the "lasers".
